

# TRACK MARSHALL

## Where do I go when I arrive?

Upon arrival: Please report to the Parent duty sign in desk to check in for your duty and collect a yellow 'official' vest.

Track Marshalls are required to stand at the end of the track near the track crossing and at the end of the straight track near Princess Street.

## Straight Track Marshalls:

Your job is to ensure athletes stay in their lanes and remain in their lane order at the end of the race. You will need to get them to face the table and you will need to read out each number to the person entering results. Once all data has been entered, direct the athletes to walk behind the results table to wait for the remainder of their age group.

## Circular Track Marshalls:

Your location is at the end of the track near the stairs/ramp and track crossing.

For staggered start races (200m/400m) you will need to ensure athletes remain in their lanes at the completion of their race. Once all athletes have completed the race, walk them over to the results desk, in lane order so that their numbers can be recorded.

For pack start races: (300m, 500m, 700m and above) you will need to direct athletes as they finish to the results desk.
